**STAND UP AGAINST SEXUAL ASSAULT...  
MAKE A DIFFERENCE!**

The Department of Defense (DoD) remains committed to eliminating sexual assault from the ranks of the military. Sexual assault is a crime. It inflicts incalculable harm on victims and their families; it tears at the very fabric of civilian and military communities; and it destroys trust among individuals and faith in our institutions.

The DoD has made significant progress in combating sexual assault by introducing a comprehensive sexual assault prevention and response policy and implementing it across the Military Services.
